“Feeds Formulation and Feeding Management Training For Aquaculture Activities”

The Pangasinan State University-Binmaley Campus, through the initiative of Dr. Rosie S. Abalos, Dean of the College of Fisheries and Environmental Sciences, and with the assistance of Dr. Dominica J. Sajonas, Campus Extension Coordinator, conducted a two-day extension training entitled “Feeds Formulation and Feeding Management Training For Aquaculture Activities” in Barangay Canaoalan, Binmaley, Pangasinan last March 24-25, 2022.

Different topics were discussed during the first day. Dr. Rosie S. Abalos talked about the training overview as well as feeds and feeding management, including feed formulation. Ms. Jennie B. Fernandez tackled the essential nutrient requirements for fish while Dr. Emmanuel Federico C. Capinpin, Jr. discoursed on the locally available plants and animals as sources of feed ingredients.

A hands-on demonstration on feed formulation was conducted on the second day of the training activity. Participants were accompanied by the CFES faculty and staff in making an aquaculture feed out of combined ingredients of fish meal, rice bran, soya oil, corn starch and vitamin pro. They were also taught the right percentages of each ingredient to be used and the proper procedure to be done in making an aquaculture feeds.

The said extension training ended with a closing remarks delivered by Dr. Rosie S. Abalos. Certificates of participation were also given to each participant. Training evaluation and customer satisfactory form were also distributed to the trainees by Dr. Dominica J. Sajonas.

A total of 45 participants came from the local fisherfolk of the said barangay, including the CFES faculty and staff, attended the said training
