

Dr. Valencerina along with Dr. Dulos and Dr. De Vera took the opportunity to express their gratitude to the University President, Dr. Dexter R. Buted for his relentless support not only to the entire workforce but to the graduate school as a whole. At the team building proper the vigor of the members were put to the test through fun and enjoyable, yet puzzling and physically-challenging activities each well-thought-out to make each of them feel closer to the wider team by reinforcing team spirit, deepen trust and confidence in each other, and increase greater collaboration by improving their communication and problem-solving skills.

The said event was preceded by a benchmarking activity with UPLB's Graduate School where the PSUnians learned about the unit's processes and management and got to meet and dine with the prestigious institution's head Chancellor Dr. Jose V. Camacho along with the rest of his staff.

PSU frontliners undergo Basic Sign Language training

Adhering to the universal mantra of Education for All, the Pangasinan State University embarked on a Basic Filipino Sign Language training to give more opportunities for differently-abled students to complete an academic degree.

Organized by the Admission and Guidance Services Unit under the Students and Alumni Affairs Office, along with the Gender and Development Unit, the activity had the frontline personnel from PSU's offices as participants.

The five-day training slated from May 23-26, 2022, was conducted online, while the last day (June 1) was held face-to-face at the university's audio-visual room.

Ms. Marinuelle Aquino, Head of the Admission and Guidance Services, said learning sign language words is a great way to build a basic vocabulary foundation to ensure that clients with hearing impairment will be adequately attended to with their needs.

Studying sign language encourages personnel and students to become more aware of and sensitive to members of the deaf and hard-of-hearing population. Studies also show that using it will enhance one’s cognitive functions, resulting in higher abstract and creative thinking, better problem-solving skills, better listening skills, and greater academic achievement.

The University gives the inclusive education program high regard as it inculcates to its teaching, non-teaching

staff, and students the benefits and importance of diversity, cooperation, and consideration of others.

Internal Audit Training Courses: Training auditors for QMS Audit using 9001:2015 Standard

The series of training by Rosehall Management Consultants, Inc. resumed yesterday, June 20, 2022, with Consultant/Trainer/Auditor Ms. Ma. Cecilia M. Fabian for the course entitled, “Conducting QMS audit using 9001:2015 standard based on ISO 19011:2018 audit guidelines”

It was participated by PSU auditors composed of teaching and non-teaching personnel held at TN Convention Hall. The OVPQA through the IAA is hosting these trainings intended for the PSU IQA Internal Audit team to capacitate its auditors on the QMS framework through documenting policies, processes, procedures, and responsibilities. The training courses are slated from June 20 to June 27, 2022.
