ON LAND

PANGASINAN STATE UNIVERSITY

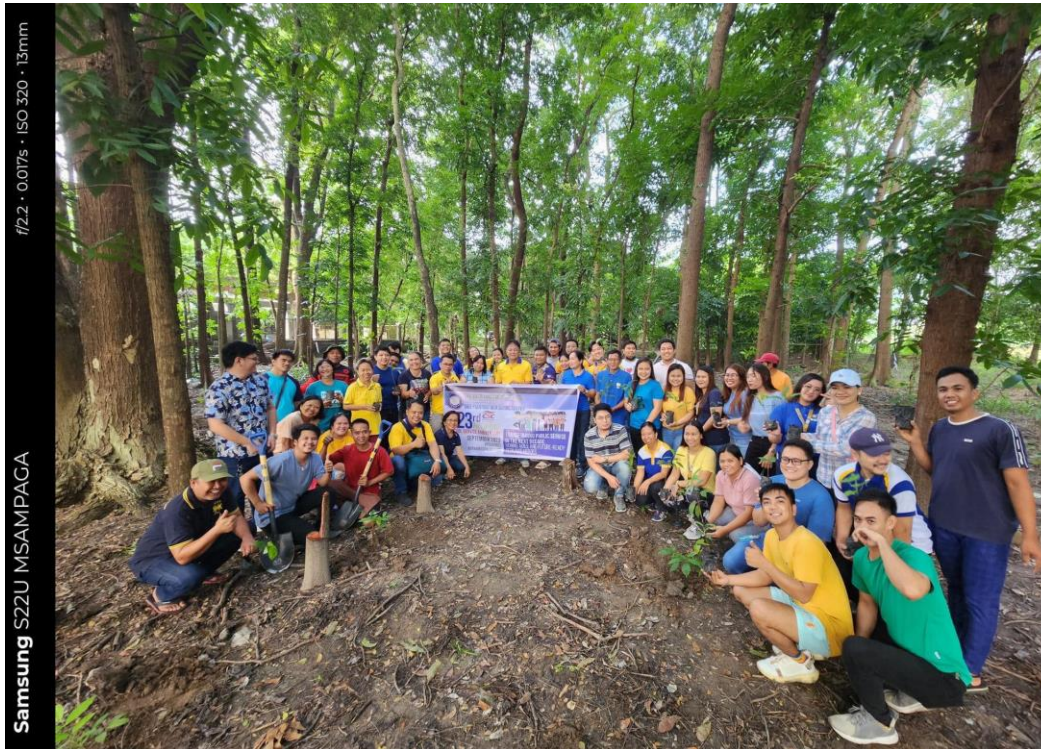

SDG 15 – Life on Land Accomplishment Report

Pangasinan State University (PSU) is dedicated to advancing Sustainable Development Goal 15, which aims to protect, restore, and promote sustainable use of terrestrial ecosystems. PSU engages in initiatives that enhance environmental conservation and promote biodiversity on campus and in surrounding areas. Through activities such as tree planting campaigns, PSU creates a culture of environmental stewardship among its community.

✓ Relevant Programs and Activities

- PSU Sta. Maria Campus Celebrates Civil Service Anniversary with Tree Planting Activity

In September 2023, Pangasinan State University's Sta. Maria Campus marked the Civil Service Anniversary with a tree planting activity, showing its commitment to Sustainable Development Goal 15: "Life on Land." By planting trees, the PSU Sta. Maria community actively contributed to ecosystem restoration, biodiversity conservation, and the fight against land degradation. This initiative aimed to enrich local habitats, promote soil health, and support the region's flora and fauna. Beyond the immediate environmental benefits, the activity encouraged participants to reflect on their role in preserving natural landscapes for future generations. Through dedicated efforts like this, PSU Sta. Maria strengthens its mission to protect, restore, and promote sustainable use of terrestrial ecosystems, furthering its commitment to a greener and more sustainable future.
